

OUR TECHNICAL AND SOCIAL INNOVATIONS

We decided to develop our own payment card because we understood each other's needs and businesses, but more importantly because no other company was providing a matching solution

Manage your third-party payments and disbursements with complete serenity!

SPLIT PAYMENT & DISBURSEMENT MANAGEMENT

Much more than a traditional payment service, **WESHAKE** is a unique business management solution that secures and enhances relationships between customers, suppliers and subcontractors.

WESHAKE

is ideal for companies, startups and platforms in the mobility, freelance, legaltech, foodtech, tourism and many other sectors.

A package of services to manage your business and partner network

An exclusive and totally secure payment service

Simplified invoice management

Invoice instantly with or without split payments

Barometer on the presumption of employee status

The WeShake card to manage disbursements/payments on behalf of third parties

An interface between freelancers and platforms/companies

API integrations

Support and technical assistance by telephone

Avoid the risks of presumption of salaried status or abuse of economic dependence with WESHAKE

Secure your relationships with your partners in real time and easily set quotas. Notify your partners and automate revocation processes
